Contact Group Executive Jim Joseph January 9, 2001 California Governor announces the establishment of 6 state energy agencies SACRAMENTO The government announced a number of announcements today which will aid in the state's fight against global warming. In a statement Governor Gray Davis said that the agencies will provide the services needed to remove greenhouse gases from power plants, encourage conservation and diversify the California energy portfolio. The state will form six new energy-related agencies which include: A substantial program to encourage creation of renewable electricity from energy sources such as wind and solar power. Steven Conner, Secretary of the State of California. to study the effects of global warming, and to assess and develop options for managing those effects. Bill Jones, Director, Office of Planning and Research to support the development of clean air technologies. John Lynch, Chairman, California Energy Commission to promote the conservation of energy. Michael Shames, Director, Office of Strategic
