It was a great year of hockey, including great matchups, highlights, and players. After just two rounds of games were played last week the top 6 teams are sorted into their first-round brackets for the playoffs. The scoring has been fast-paced all year long as the teams jockey for positioning, but one team has really gotten a leg up as of late: Central Michigan. They won the regular-season crown (as well as their final home game of the season) in decisive fashion over Flint Hills of Mpls at the Ice Arena in Lansing. The Mariners' lineup was led by Ian Bruce with a hat-trick of goals while the defensemen and netminder both scored. Tom Curtis followed up his initial win last week with another stellar showing against Flint Hills to keep his hopes of running into Central Michigan alive. Curtis has 11 goals, 7 assists, and a plus-16 rating to lead the league. He has his work cut out for him as he is matched up against Kenneth Awalt and Dominic LaRocque, two of the top players in the division and are two very different styles of players. Awalt is supposed to be the electric scorer in the league and was a force last week with his game-winning goal against Flint Hills, but Curtis will have to stay out of the box and outsmart him all night long to pull out a win. Awalt has 15 goals, 9 assists, and a plus-17 rating while LaRocque has a plus-26 rating and is an excellent defensive player. Curtis won't be the only CMU player on the ice as Matt Schlegel, their leading scorer, will play for Flint Hills on Tuesday night. While Curtis has the advantage of being the division leader with the most points he's still a step behind the rest of the league as he hasn't scored more than 3 goals all year.
