Grant Admin Full Control Download

Grant Admin Full Control Cracked Version is a portable program developed with the goal of helping you take ownership of files and folders on your computer. In general, users with restricted access to the computer may find it helpful because it enables them to change the file permissions. The process requires that you change the owner of files and folders so that they are granted full rights to do what they want with them. Grant Admin Full Control is one of the most compatible applications developed by Soft-Factory, and it is easy to use because it doesn't require much of setup before starting the actual installation process. The utility shows a simple panel made from two halves. Users can adjust settings on their own, and it is possible to resize and move items around by dragging and dropping them on the main window. If you have experience with other similar programs, you will find Grant Admin Full Control a great companion. The interface displays two main panels: "Items to manage" and "Advanced Options." Both features are easy to follow, but they are also available to suit different users. The items in the list are categorized, and each of them comes with detailed explanations and parameters. Grant Admin Full Control comes in handy because it enables you to take ownership of general files, DLL items, EXE files, and directories. To do so, you can simply drag and drop these items to the corresponding categories. A set of parameters can be adjusted directly in the main window, allowing you to set permissions for permissions granted, change items types, and filter items that are displayed. Moreover, you can move the focus back to the "Items to manage" panel after changing some settings by pressing "Back to control panel". Another interesting feature included in the package enables you to drag and drop files and folders directly in the main window in order to grant ownership of. A number of different settings can be adjusted using the context menu. General settings can be seen on the top, and you can access Advanced Options by pressing its tab. The following options can be tweaked in the "General Settings" box: Change owner rights – allows you to change the owner of files and folders. Lock files and folders – blocks all modifications made to items. Create a shortcut to files and folders on the desktop – makes a direct link to items you have granted ownership. Change file attributes – allows
