"Layers of Intelligence," a feature available in the game's "Smart Controls" option, will make players easier to control, understand, and connect to. Initial gameplay feedback from a closed beta test earlier this year suggests that "Layers of Intelligence" is an accessible and fun option to control the game. We'll continue to watch the technical details of the beta feedback closely. Also in FIFA 22, Creative Director Andy Moore worked on six years of football gameplay to create the "Ultimate Team" mode on top of the "FIFA Origins" core gameplay. "Ultimate Team" adds depth and strategy to "FIFA Origins" using a fully customizable roster with the ability to add and remove players at any time from the FIFA 18 roster. "What has made FIFA Ultimate Team a great success is the depth of team and player behaviour and the real world banter, as well as the ability to customise how you feel the game plays," said Andy. "The idea of telling a squad story through gameplay was very much Andy's vision when he began this project and it's the continued focus to make the best football match experience of any kind." Additional features for FIFA 22 are as follows: "Jog Ahead" give players a new way to control the pace of play by jogging a few metres in front of the player, which can lead to a face-off or a pass to a team-mate. "Control Room" is a new ball physics state that puts you in control of the ball and gives you more control over the movement, spin

and weight of the ball. "Dynamic Cutscenes" recreate a live match experience by offering cinematic close-ups and high-definition video sequences that match the key moments in the game. "FIFA Career" is a new feature that enables players to start a new career or as a secondary club option. "Atmospheric Atmospheres" are a new feature that gives the stadium an authentic atmosphere that reacts to gameplay. "FIFA Boundary Box" moves the goalkeeper in from a 2v2 to a 3v2 direct confrontation. Below are details on all the features that will be included in FIFA 22 on May 29, 2019 when the game is released. FIFA 22 Details
