Strategy or Role  
Playing games,  
then you are in the  
right place. All of  
these games are  
in small size and  
can be easily  
installed to your  
Windows PC, Mac,  
Android phone,  
and even iOS  
device for  
free. Normal flush

---

Flush refers to the normal course of the menstrual cycle. In females, the term flush is applied to the flushing of facial and other tissue resulting from increased blood flow during a menstrual cycle. Hormonal changes and resultant sebaceous gland

---

activity can affect the appearance of the skin, causing it to be redder or darker. Other hormonal changes, including a rise in thyroid hormone and oestrogen, also contribute to skin color. The condition is seen in pregnant women, post-menopausal

---

women, and those using oral contraceptive pills. Flushing can also occur during emotional states like anger. While using the term flush as a medical term may be considered medically accurate, its continued use as a slang term in the

---

medical  
community is not.  
The American  
Dental  
Association, the  
American Medical  
Association, the  
American  
Academy of  
Dermatology and  
the International  
Society of  
Aesthetic Plastic  
Surgery have  
issued a joint

---

statement on  
flushing.

Etymology The modern term flush is attested in the late seventeenth century. It comes from the early English term to flush, which also meant to cause by forcing, as in a waterwheel forcing the water through a channel (see

---

also  
hydrodynamics).  
Another source  
tells the origin of  
the term as  
stemming from  
the Middle English  
word freush, which  
meant purification.  
The modern slang  
term to "flush" has  
a similar
