nocdcrackforpacificwarriorsiidogfight. What is Nocardia corynebacterium infection? Nocardia cytoplasmic polysaccharide. Mince of gravy, cook of mashed?  
<http://www.posar.es/w/nocdcrackforpacificwarriorsiidogfight/>  
Nocardia sinopei (Kim et al. Yes, there is a google browser simulator. By the way, I've got one. (kidding) Anyway, I guess I didn't realize what it was at first because I didn't pay much attention to it. It's well hidden and really easy to miss. Click to expand... i am serious Click to expand... agreed. Click to expand... Just so you know, the original RNG rar and all the associated files were 9 hours old when I started working on this. I was doing all of this about 36 hours ago. I just put the New RNG pack together. To be honest, I'm surprised it's not like this for a month at least, since it's a lot of work. This is a small RNG for the International Wallpaper Pack. See spoiler for link to original RNG at the bottom of this post. + More info + Spoiler: A short "gist" of how I did this and a larger "XLS" file with all the links to the original RNG is below. 1. First, here are the textures. This pack has more textures than the rest of the International Wallpaper pack combined, all because of the way the lockers work. They are quite difficult to do textures on and it took a lot of time. I used over 500 textures and only removed one of them. You can get them all by downloading the "XLS" file here. Click to expand... 2. Second, here are the xml files. I have links to the original xml files, which were easy to edit, right here. You will have to download the zip file of the xml to get the actual xml files. I linked to those too in the "XLS" file. Click to expand... 3. After that, I removed the most things from the actual xml files, just keeping the ones I need for the lockers. I also removed the xml from the textures. I still have every xml file the original RNG had, but they're in the xml format now, which is easier to use. I have links to those below. This pack also has new customs, so if you didn't get this pack before now, you probably will now. So I'm trying to make this as complete as possible so if you want it, you can get it. So once again, this will be an AEWP, like the other ones. The main caveat is that you may want a special character for the custom, like a gun for a siege siege, or a

---

sword for a gladiator. But at least most of them should be included in the pack. So my first post I will just put a link to the original RNG pack, and I will be back in a few days with some details on how I did this. I will do another post on those directions, but for now, I will just state them. First off, I should state that I am a Java programmer, not a C# programmer. I know how to code, but I don't know C#.
