in my opinion, this book is the best volume for those who want to gain knowledge of the quran and its science, and with this knowledge, they will be able to prevent the ignorance of some misguided muslims. as-salamu alaykum. in this booklet, it has been translated into arabic, although it contains language and style of arabic. just through reading the tafsir, i was able to grasp its meaning. in this booklet there are 30 volumes. for me, this is the best volume. the translation of the tafsir into arabic, although published in a language that is not the language of the quran, is very good because the translation is very complete. the translator used in translating the quran is a master of arabic and a scholar of the quran. so the translation is also good, and the tafsir in arabic is easy to understand. the tafsir is very helpful to those who want to have a thorough understanding of the verses of the quran and of the knowledge of the grammar of the quran. therefore, every muslim who wants to understand the quran should read this tafsir. as-salamu alaykum. the tafsir is very helpful to those who want to know the quran. at the same time, those who do not have the time to read the tafsir, this is the book to help understand the quran. therefore, when reading this tafsir is beneficial to the person who understands the science and language of the quran. may allah bless him. this book is very useful to those who want to learn the quran. the translator has been very successful in translating the tafsir into arabic and has completed the 30 volumes in arabic. but to be able to read the tafsir, you need to learn arabic.
